Applied Ergonomics

Index to volume 21 (1990), nos 1–4, pages 1–352

Articles

A field evaluation of driver eye and head movement strategies toward environmental targets and distractors, *Rahimi, M., Briggs, R.P., and Thom, D.R.*, 267

A perfectly ordinary car window (Technical Note), *Bobjer, O., and Carlsson, L.*, 331

A robot safety experiment varying robot speed and contrast with human decision cost, *Etherton, J., and Sneckenberger, J.E.*, 231

A typewriting system operated by head movements, based on home-computer equipment, *Heuvelmans, A.M.F., Mélotte, H.E.M., and Neve, J.J.*, 115

Aiding the operator's anticipatory behaviour: the design of process state information, *Spenkelink, G.P.J.*, 199

An electromyographic analysis of an ergonomic intervention with the jackleg drill, *Lavender, S.A., and Marras, W.S.*, 90

Anthropometry and design for the disabled: Experiences with seating design for the cerebral palsy population, *Hobson, D.A. and Molenbroek, J.F.M.*, 43

Blade size and weight effects in shovel design, *Freivalds, A., and Kim, Y.J.*, 39

Calculating relaxation allowances for construction operatives – Part 1: Metabolic cost, *Price, A.D.F.*, 311

Calculating relaxation allowances for construction operatives – Part 2: Local muscle fatigue, *Price, A.D.F.*, 318

Coding techniques for process plant VDU formats, *Umbers, I.G., and Collier, G.D.*, 187

Curve negotiation performance in a driving simulator as a function of curve geometry, *Gawron, V.J., and Ranney, R.A.*, 33

Customised text entry devices for motor-impaired users, *Levine, S.H., and Goodenough-Trepagnier, C.*, 55

Design of functional work clothing for meat-cutters, *Ilmarinen, R., Tammela, E., and Korhonen, E.*, 2

Designing the user interface using rapid prototyping, *Keyson, D.K., and Parsons, K.C.*, 207

Development and promotion of a safety shopping bag/vest in developing countries (Developing World Ergonomics), *Mohan, D., and Patel, R.*, 346

Effect of work-rest schedules on spinal shrinkage in the sedentary worker, *Helander, M.G., and Quance, L.A.*, 279

Effects of environmental colour on males and females: A red or white or green office, *Kwallek, S., and Lewis, C.M.*, 275

Effects of redundancy in the comparison of speech and pictorial displays in the cockpit environment, *Byblow, W.D.*, 121

Evaluation of a supermarket twin-checkout involving forward and backward operation, *Strasser, H.*, 7

Foot reach under guard rails on agricultural machinery, *Bottoms, D.J., and Butterworth, D.J.*, 179

Impact attentuation of floor coverings in simulated falling accidents, *Maki, B.E., and Fernie, G.R.*, 107

Improving plant and machinery maintainability, *Mason, S.*, 15

Lifting in four restricted lifting conditions, *Gallagher, S., and Unger, R.L.*, 237

Physiological and psychophysical responses to static, dynamic and combined arm tasks, *Genaidy, A.M., Houshyar, A., and Asfour, S.S.*, 63

Potential users' needs for information about expert systems, *James, D.T.D.* 227

Psychophysical models for manual lifting tasks, *Genaidy, A.M., Asfour, S.S., Mital, A., and Waly, S.M.*, 295

Recommended maximum temperatures for touchable surfaces (Technical Note), *Siekmann, H.*, 69

Scenarios in the design process, *Stoop, J.*, 304

Stairway risers and treads: acceptable and preferred dimensions, *Irvine, C.H., Snook, S.H., and Sparshatt, J.H.*, 215

The accuracy of estimating thermal insulation of clothing ensembles – the effect of appraisers, *Kähkönen, E., Nykyri, E., Tammela, E., Ilmarinen, R., and Seppälä, T.*, 325

The effects of long-term VDT usage on the nature and incidence of asthenopic symptoms, *Yeow, P.T., and Taylor, S.P.* 285

The interaction of chromostereopsis and stereopsis in stereoscopic displays, *McClain, J.E., Cacioppo, A.J., Reising, J.M., and Koubek, R.J.*, 101

The relationship between isometric strength of Cantonese males and the US NIOSH guide for manual lifting, *Evans, W.A.*, 135

The relative importance of noise and vibration from railways, *Howarth, H.V.C., and Griffin, M.J.*, 129

Training for an agricultural discrimination task, *Hartley, L.R., Higgins, T., MacLeod, C., and Arnold, P.K.*, 152

Understanding strategic use of 'on-the-job' reference aids, *Scerbo, M.W., and Fisk, A.D.*, 25

Use of computer aided drafting for analysis and control of posture in manual work, *Ulin, S.S., Armstrong, T.J., and Radwin, R.G.*, 143

Workstation variables and visual discomfort associated with VDTs, *Collins, M., Brown, B., Bowman, K., and Carkeet, A.*, 157
